Dear Mr. Zwiesler:

Re: Radiological Survey of 4843 Alkali Metal Storage Facility (AMSF)

Thank you for your technical assistance during the 4843 AMSF survey on May 15, 1995. The representation of your agency, the Washington State Department of Health (DOH), during the radiological survey and your patience with the scheduling of the survey is greatly appreciated.

The Washington State Department of Ecology's (Ecology) understanding is you will write a summary report of the radiological survey stating the findings of the inspection for Ecology. Ecology would like to include your report in the 4843 AMSF Closure Plan. The report U. S. Department of Energy issues regarding the radiological survey will also be included in the Closure Plan.

If you have any questions, or if the summary report will be delayed, please contact us at 736-3025 (Greta) or 736-3034 (Alisa). Again, on behalf of Ecology, your assistance during the survey is very much appreciated.

Sincerely,

Greta Davis
